Q.3. I would like to read out a number of things that other people have said the government should do to try and stop people smoking. For each one I read out, please say whether you would support or oppose it? Is that strongly or slightly?

SUMMARY TABLE**Base : All respondents**

		The government should move towards making tobacco an illegal drug	The government should ban smoking in all enclosed spaces and workplaces, including pubs, bars and restaurants	The government should make smoking more expensive by increasing the tax on cigarettes	The government should spend more on anti-smoking campaigns and provide services that advise people on how to stop smoking	The government should discourage people from smoking by requiring smokers to contribute to the costs of any treatment for smoking-related diseases	The government should discourage people from smoking by denying smokers access to NHS treatment for smoking-related diseases

Q.3. I would like to read out a number of things that other people have said the government should do to try and stop people smoking. For each one I read out, please say whether you would support or oppose it? Is that strongly or slightly?

The government should discourage people from smoking by requiring smokers to contribute to the costs of any treatment for smoking-related diseases

Q.11. I would now like to read out a number of things that other people have said the government should do to encourage people to drink less alcohol. For each one I read out please say whether you would support or oppose it.

SUMMARY TABLE**Base : All respondents**

		The government should move towards making alcohol an illegal drug	The government should discourage excessive drinking by increasing taxes on alcoholic drinks	The government should discourage excessive drinking by banning drinks promotions (e.g. two-for-one offers, a-pound-a-pint promotions)	The government should provide more funding to ensure that the minimum age at which people can buy alcohol (i.e. 18) is enforced	The government should encourage people to drink safely by spending more money on safer drinking campaigns and services to tackle excessive drinking

Q.14. I would now like to read out a number of things that other people have said the government should do with regard to the health of children and young people. For each one I read out please say whether you would support or oppose it?

To discourage unprotected sex, condoms should be freely and easily available to all children under 16
