

## ICM Post Debate Poll for The Guardian

**Fieldwork dates:** 22<sup>nd</sup> April 2010

**Interview Method:** Telephone.

**Population effectively sampled:** All adults aged 18+ in GB

**Sampling Method:** Within Great Britain, a random sample of telephone numbers was drawn from the entire BT database of domestic telephone numbers. Each number so selected had its last digit randomised so as to provide a sample including both listed and unlisted numbers.

**Sample size:** 504 adults aged 18+

**Data weighting:** *ICM Research interviewed a random sample of 504 people by telephone on 22<sup>nd</sup> April 2010. ICM re-interviewed people who had previously been selected at random on a recent telephone omnibus and had told us they would be watching the second live TV debate. All agreed to be spoken to again. The sample has been weighted to the profile of all people selected at random who previously stated they would be watching the debate.*

**Questions:** The computer tables attached in PDF format show each question, in full, in the order they were put to respondents, all response codes and the weighted and un-weighted bases for all demographics and other data including but not limited that published .

**Further enquiries:** [martin.boon@icmresearch.co.uk](mailto:martin.boon@icmresearch.co.uk)

**British Polling Council:** ICM is a member of the British Polling Council and abides by its rules. <http://www.britishpollingcouncil.org/>

# Post Leaders' Debate Poll 1

## Fieldwork: 22nd April 2010

Absolutes/col percents

Table 1

**Q.2 Putting aside your own party preference and only basing your answer on what you saw or heard during the debate, as far as you are concerned which one of the three leaders do you think won the debate?**

**Base: All respondents**
