

# Independent Candidates Poll – Independent Network

**Fieldwork dates:** 30<sup>th</sup> April 2010

**Interview Method:** Telephone.

**Population effectively sampled:** All adults aged 18+ in GB

**Sampling Method:** Within Great Britain, a random sample of telephone numbers was drawn from the entire BT database of domestic telephone numbers. Each number so selected had its last digit randomised so as to provide a sample including both listed and unlisted numbers.

**Sample size:** 1019 adults aged 18+

**Data weighting:** Data were weighted to the profile of all adults aged 18+ (including non telephone owning households). Data were weighted by sex, age working status and social class, Targets for the weighted data were derived from census data.

**Questions:** The computer tables attached in PDF format show each question, in full, in the order they were put to respondents, all response codes and the weighted and un-weighted bases for all demographics and other data including but not limited that published .
